# Ho Dao College English Enhancement Scheme - Implementation Plan (2007/2008 – 2012/2013)

## A. Present State of Play

Ho Dao College, located in Yuen long, is a CMI school. Students are almost all in Band 3. Among them, about 45% are in bottom 10% of \*SSPA. Of all students, 55% are the needy students or those who are in the social security net. This suggests their families are financially vulnerable and they receive little parental support. Without much chance of exposing to English after school, they lack confidence to acquire the language and some of them are even afraid of trying it out. With this in mind, English Department has currently implemented a number of measures at different levels of the school to facilitate them to catch up with their fellow peers and to further consolidate their basic competence in English. To make the best use of the English Enhancement Scheme funding, a close scrutiny of the school's current situation, the path to pursue in the years to come and the requirements of the NSS English Language is of paramount importance. Here are the different aspects that we have taken into consideration when preparing the six-year implementation plan.

Churry oth a	1. Summart from Silt Silt Vicen the Snoncored Dady and the school authority						
Strengths	1. Support from Sik Sik Yuen, the Sponsored Body and the school authority						
	2. Collaboration with English Teams of Sister Schools under Sik Sik Yuen

# **D.** The Objectives of the 6-year program

With the funding of the English Enhancement Scheme, the emphasis first falls on learners' speaking ability with the supplement of reading and listening. It is comparatively easier for learners to perceive and produce. After getting the initial taste of success, learners are then more eager to move on putting effort on reading and writing, coupled with the consolidation of their listening skills. After the implementation of the 6-year plan, we expect to achieve the following objectives.

- 1. Encourage learners to pick up and apply the language in authentic situations
- 2. Equip students to prepare well in all papers of public assessments/examinations
- 3. particularly develop students' speaking skills to allow them to perform well in the paper of public assessments like TSA or SBA
- 4. Enhance teachers' professional development in language arts, their readiness and preparation for the NSS
- 5. Sustain the impact of the scheme after the implementation of the 6-year plan
